

EVAN SPEER

VICE PRESIDENT, NORCAL CLEAN
CITIES COALITION

PROFESSIONAL OVERVIEW

Evan Speer is a Transportation Electrification Strategist and Government Operations Leader based in Sacramento, California. Currently serving as the Vice President of NorCal Clean Cities Coalition and Supervisor of Emerging Technologies at SMUD, Evan has a strong background in public service, green technology evaluation, fleet management, and electric vehicle strategy.

With over a decade of experience in government and energy innovation, Evan has held leadership roles at the California Government Operations Agency and the Department of General Services, overseeing fleet and asset management to advance sustainability initiatives. His expertise spans electric vehicle infrastructure, strategic business planning, and policy development.

Evan earned both his Master of Public Administration (M.P.A.) and B.A. in International Relations from the University of Southern California, equipping him with a deep understanding of global and domestic energy policy.

As an advocate for clean energy solutions, Evan remains focused on driving innovation in sustainable transportation and grid strategy to support California's transition to a zero-carbon future.
